Creative Machine
A major exhibition exploring the twilight world of human/machine creativity, including installations, video and computer art, artificial intelligence, robotics and apps by leading artists from Goldsmiths and international artists by invitation.

Curators: William Latham, Atau Tanaka and Frederic Fol Leymarie
Exhibition Organiser: Steph Horak

Human Interactive Conference
To coincide with the Creative Machine exhibition Goldsmiths is hosting a major one day conference exploring the theme of human/machine interaction with leading industry and academic speakers across computer games, robotics, VR, neuroscience, psychology, bioinformatics and computer art.
